## TOWN CLERK'S REPORT FOR 1923.

There seems to be but very little for me to report on this year, as the financial doings of the town are very complete, being reported by the Selectmen, Treasurer, School Board, and Road Commissioner. However, I have kept a careful record of the Town's Vital Statistics.

I have recorded three marriages, however a large number is anticipated this year owing to the fact that it is leap year.

Fourteen births were recorded, one of which should have appeared in last year's report, but through some error failed to do so.

Fifteen deaths were recorded, twelve of which occurred in Piermont.

Ninety-one auto permits were issued. Sixty-one dogs were licensed, and one breeder's license issued. Also one junk dealer's license.

Memorial Day was appropriately observed, and as I was a member of the committee, I desire to thank all who worked so faithfully to make it a success. It seems to me when we make our appropriations, here are some little things we fail to take into account. Each year brings new graves to be decorated as the Old Soldiers one by one answer the last bugle call. Until very recently the G. A. R. Post always have furnished the flags for this purpose, but are not able to do it now, therefore this expense must be borne some other way. I think fifty dollars is too much to raise if we are going to observe the day every year. However twenty-five dollars is not quite enough, as we should not have been able to meet the expense this year had it not been for contributions from outside.

Although we had perhaps an unusual amount of sickness and a larger number of deaths last year than for some years, we still have much to be thankful for. We had no destructive storms, and no fires entailing property loss which had to be reported.

If you want to have the kind of home  
town

Like the kind of a town you like,  
You needn't slip your clothes in a grip  
And start on a long, long hike.  
You'll only find what you left behind,  
For there's nothing that's really new.  
It's a knock at yourself when you  
knock your town;  
It isn't the town—it's you.

Respectfully submitted,  
ORLO B. STANLEY, Town Clerk.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To The School Board and Citizens of Piermont:

It is with pleasure that I hereby present my annual report as superintendent of the schools of Piermont.. The last year has seen but little change in the School program. The work has followed as closely as possible the Program of Studies outlined by the State Board of Education.

Three new teachers were elected last summer; Alice Hickey for Village Primary, Marjorie Brown for Clay Hollow and Hazel Varney for Brook Road. The Back Road school has been closed and the children transported to the River Road school. The children from these two schools together number but 12.

The attendance last year averaged 89 per cent of the membership. This is the same as during the preceding year. The average attendance for the state last year was 93.4 per cent. Three of the six schools maintained an attendance record equal to, or better than the state average. This year some steps have been taken to improve the attendance, where poor attendance was due to negligence.

There were 111 different pupils enrolled during the past school year. The following pupil was perfect in attendance for three terms last year: Pearl Webster. perfect attendance for two terms: Phyllis Morrill, Benjamin Brown, Claude and Violet Smith. Perfect attendance for one term; Martin Day, Katherine Elliott, Arlene Tarbox, Verna Hibbard, Sybil Hibbard, Nelson Webster, Lenwood Smith, and Margaret Smith.

Standard Tests were given last Spring in arithmetic, reading, language and history as well as tests to show mental ability. These tests make it possible for us to compare the progress made in a given subject with the average progress made by a large group of children. By this means I hope to eliminate haphazard judgment of progress, and find out how our children and schools compare with others. The results of these tests are, on the whole, encouraging, though of course there is chance for improvement. Last October tests were given to the 8th grade in arithmetic and spelling. These tests gave pleasing results, as the results showed that the average

achievement in both subjects was better than the average for the state.

The medical inspection and follow up work has been done by Miss Underhill, our district nurse. As school nurse she has been zealous in her work. Following the examination, she has not only dealt with needy cases in school, but has gone with them to the homes, persuading parents to act. This year in addition to urging attention to defective eyes and teeth, diseased tonsils and adenoids etc., considerable attention has been given to children that were underweight. In order to arouse the interest of the children, a plan has been arranged for charting the weights of the pupils each month. Each pupil is instructed in what should be his proper weight. Inasmuch as the weight related to the height gives a good indication of the condition of health, it is very helpful to have the children's interest aroused in this direction. Plans are discussed for increasing weight and for healthy living.

Parents should give attention to the notices sent them by the nurse for no pupil can do the mental work of the school properly if Physically handicapped. I wish that more parents would find time to visit our schools, and thus get better acquainted both with the teacher and the work being done.

The two most important steps in improving schools are to improve the teaching and to increase the actual attendance of pupils while schools are in session. Both teachers and superintendents are working together for both of these objectives.

In conclusion, I wish to thank the teachers, School Board and Citizens for helpful support and loyal cooperation.

Respectfully submitted,  
WILLIAM J. NELSON,  
Superintendent Supervisory Union No. 48.
